Module 2
Checking the Basic Assumptions

Assumption	Type of Examination	Possible Techniques
Univariate Normality	Visual Inspection	Histogram Q-Q Plot Box Plot
	Hypothesis Tests	Shapiro-Wilk Test Kolmogorov-Smirnov Test
Multivariate Normality	Visual Inspection	Scatterplot Matrix Q-Q Plot of Mahalanobis Distances
	Hypothesis Tests	Mardia Test Henze-Zirkler Test
Homogeneity of Variances	Visual Inspection	Scatterplot Box Plot
	Hypothesis Tests	Levene Test Bartlett Test Brown-Forsythe Test Fligner-Killeen Test
Homogeneity of Variance-Covariance Matrices	Visual Inspection	Scatterplot Box Plot
	Hypothesis Tests	Box's M Test
Linearity	Visual Inspection	Scatterplot Residual Plot
	Hypothesis Tests	Linear Regression Analysis
Multivariate Linearity	Visual Inspection	Scatterplot Matrix Partial Regression Plots
	Hypothesis Tests	Multivariate Regression Analysis
Independence of Residuals	Visual Inspection	Residual Plots
	Hypothesis Tests	Durbin-Watson Test
Sphericity	Hypothesis Tests	Mauchly Test
Outliers	Visual Inspection	Box Plot Scatterplot
	Hypothesis Tests	Grubbs Test Mahalanobis Distance
Missing Data Pattern	Visual Inspection	Pattern Plot
	Hypothesis Tests	Little's MCAR Test
